Sanitized Copy Approved for Release 2011/02/15: CIA-RDP82-00457R009100550004-1 50X1-HUM SECURITY INFORMATION 50X1-HUM many young male and female Úa Russian civilians, whose assignment was kept secret, arrived at the field. (5) Comments.

Orading of the leading field in the western extension of the runway was 50X1-HUM (1) proviously reported to have been completed. The type and number of aircraft observed indicate that the field is still (2) occupied by a bomber regiment equipped with PC-2s. This is the outer landing beacon of Sotthus airfield, For its pin-point (3) 50X1-HUM (4) the amunition dump belongs to Cottbus airfield. No details on the type and quantity of stored ammunition are available.

The Soviet personnel is probably to replace the fedale Terman personnel that

has apparently been dismissed at all airfields in the Poviet cone of Ge many.
